Evaluation Summary
IT & Programming / Software Architect

Date	Evaluated By	Project Summary	General Comments	Overall Score
07/27/2017	Paul Anderson (Subordinate) - IT & Programming / Software Architect	Alin and I worked together on an Android application development project. Alin was a lead developer who reviewed my code and helped guide the team in understanding the requirements.	Working with Alin was a great experience. All the technical staff in the project appreciated Alin's guidance and direction.	4.9
07/27/2017	Mark Batestello (Peer) - IT & Programming / Software Architect	Alin and I worked on a web development project that calculated statistics for clinical laboratories.	Alin was a good person to work with in the team. He was always available and completed his tasks on time. He frequently took on more work.	4.4
07/25/2017	Chuck Hutchings (Peer) - IT & Programming / Software Architect	Develop ASP.NET application.	Alin did a great job.	4.8
07/24/2017	Private Member (Peer) - IT & Programming / Software Architect	Visual Studios and .NET project targeting the healthcare / clinical industry.	Really liked working with Alin, he has good technical skills and works well in the team. He was the top resource in our team who understood the client's requirements.	5.0
07/24/2017	Arthur Bennett (Subordinate) - IT & Programming / Software Architect	The project was an Android application with an interface to a medical device. The application had multiple charts and graphics. Alin was a lead on the project.	I enjoyed working with Alin and learned new skills during the project. He was always very fair and offered to do extra work. I would like to work with Alin again.	4.3
07/21/2017	William Hart (Subordinate) - IT & Programming / Software Architect	Web based application development project. The application was developed using .NET and Visual Studios technology. Alin was a lead architect on the project and I worked for him.	It was my pleasure to work in a team with Alin. He works long hours is always available to assist and answer questions. I highly recommend Alin.	4.7
07/21/2017	Titus Haden (Peer) - IT & Programming / Software Architect	Alin and I worked together on a web application that manages clinical data for clinical laboratories. The application was developed utilizing .NET technology.	I learned a lot from working with Alin. He is a strong technical resource and helps everyone in the team be successful.	4.5
07/20/2017	Private Member (Client) - Executive Search	Alin was the lead developer on an Android application that I worked on with him. The application interfaced to a medical device to record health related data.	I enjoyed working with Alin and highly recommend him.	4.4

Date	Evaluated By	Project Summary	General Comments	Overall Score
07/20/2017	Private Member (Peer) - IT & Programming / Software Architect	Alin was the architect for an Android application we developed together. The application involved a Bluetooth interface, multiple graphics and tables.	It was great to work with Alin. He technical skills are strong and he is very easy to work with, always offering to help others. I recommend Alin.	4.2
07/14/2017	Marta Rosen (Subordinate) - IT & Programming / Business Continuance Specialist	Mobile phone application that was developed for the medical device industry. The application interfaced to a medical device via Bluetooth connectivity. Alin was a developer in the project team and I was working as a tester.	It was great to be able to work with Alin. He was very patient in helping the test team to better understand the application. He addressed his defects very quickly and always closed them out on the first try.	4.6
07/14/2017	Lou Baxter (Client) - Computer Software	The project was mobile / Android application development to support data interface for a healthcare data management application.	It was great to work with Alin. He is highly reliable and always willing to go the extra mile. Technically his work is excellent and he worked well with in the team. I highly recommend Alin.	4.8
07/13/2017	Terry Weeks (Peer) - IT & Programming / Project Manager	Testing and performance of a web server under load stress used for medical device firmware/software upgrades	A great asset to the project; always supportive and eager to help others understand the technical aspects of the project.	5.0
07/13/2017	Private Member (Supervisor) - Information Technology & Services	We were contracted to develop a comprehensive, secure web-based Quality Control Program that would allow participants to monitor the precision and accuracy of tests' results on a daily basis. Alin was the lead programmer/architect of this system which is used by a National Reference Laboratory in Australia which was established as part of the Government's HIV/AIDS Strategy to evaluate HIV tests and adjudicate on the interpretation of the HIV test results.	Alin is a pleasure to work with. He is conscientious and completes tasks as promised.	5.0
07/13/2017	Lynn Hilt (Supervisor) - Information Technology & Services	Android application development for an application interfaced to a medical device.	Great project and great to work with Alin!	4.9
08/25/2016	Jeannette Adams (Peer) - International Affairs, Trade & Development	Mobile development project	Alin is one of our most valued contract employees.	5.0
